EDUCATION

•National Institute of Technology, Warangal	2022-present
B.Tech in Electronics and Communication Engineering(ECE)	CGPA: 9.35/10
•National Institute of Technology, Warangal	2023-present
Minor Degree in Computer Science and Engineering(CSE)	CGPA: 9.00/10
•MPRM Sri Viswasanthi Mahila Junior College, Vijayawada	2020-2022
Board Of Intermediate Education , AndhraPradesh	Percentage: 97.5
•Jawahar Navodaya Vidyalaya 2, KalujuvvalaPadu, AndhraPradesh	2019-2020
Central Board Of Secondary Education	Percentage: 93.2

EXPERIENCE

•Software Engineering Intern Microsoft (IDC), Hyderabad	May'25 - June'25
Tech Stack: C#, .NET 8, Power BI, SQL Server, Azure Cosmos DB	
– Built the DARTS Reconciliation worker as part of the Cloud Supply Chain Provisioning (CSCP) team to detect and automatically process real-time discrepancies between DARTS Reports and the Recycle API .	
– Developed a Power BI dashboard to surface discrepancy insights for the Business team, improving transparency and operational efficiency, and reducing manual efforts for identifying and resolving discrepancies by 93%.	
•Front-End Development Intern National Institute Of Technology, Warangal	June'24 - July'24
Tech Stack: HTML, CSS, JavaScript, API integration.	GitHub
– Designed and developed a responsive Currency Converter web application using modern front-end technologies	
– Integrated external APIs to fetch and display real-time exchange rates with a focus on mobile responsiveness and cross-device compatibility.	

PERSONAL PROJECTS

•I2U – NITW Campus Complaint Reporting App Android App Development Project	GitHub
Tech Stack: Android Studio, Java, XML, Firebase Authentication, Firestore Database	
– Built a Complaint reporting app for NITW students to submit issues by selecting campus locations, writing descriptions, and uploading images.	
– Implemented a dual-login system for students and management, enabling the management to filter complaints by type, update statuses, and sync changes in real time.	
•Tic-Tac-Toe(game) Front-End Development Project	GitHub
Tech Stack: HTML, CSS, JavaScript	
– Developed a responsive Tic-Tac-Toe game using HTML , CSS , and JavaScript , implementing two-player turn-based logic with real-time validation for wins and draws, focused on interactive front-end experience .	
•Replica of Amazon's User Interface Front-End Development Project	GitHub
Tech Stack: HTML and CSS	
– Created a replica of Amazon's user interface using HTML and CSS , implementing navigation bars, product listings, and search functionality with pixel-perfect layout and styling to closely mimic the original site's user experience.	
•Sudoku Solver(9x9) Algorithmic Problem Solving Project	GitHub
Tech Stack: Java, Concepts of Data Structures and Algorithms(Recursion and Backtracking)	
– Developed a Sudoku Solver application capable of solving standard 9x9 Sudoku puzzles using backtracking algorithm implemented in Java allowing users to input Sudoku puzzles and receive solutions to the Sudoku.	

SKILLS

Technical Skills: Data Structures and Algorithms, Java, C++, Power BI, SQL, HTML, CSS, JavaScript, C#

Coursework: Database Management Systems, Object-oriented programming, Computing Networks, Operating Systems

Soft Skills: Self-learning, Problem Solving, Critical Thinking, Adaptability , Effective Communication, Growth Mindset

POSITIONS OF RESPONSIBILITY

•Additional Secretary, Dance & Dramatics Club, NIT Warangal	2024-present
•Executive Member, Software Development Club, NIT Warangal	2023-2024

ACHIEVEMENTS

•Institute Merit Cum Means Scholarship Certificate holder for 3 consecutive Academic years.	2022-2025
•Achieved Lean Six Sigma White Belt Certificate from Microsoft	2025
•Solved 575+ problems and Achieved 365 Days badge for active problem-solving on LeetCode.	LeetCode
•LeetCode contest Rating : 1663 Codeforces Contest rating : 1271	Codeforces
•Achieved JEE Mains rank of 6524 (General category).	2022
